

FB-ISAO

FAITH-BASED INFORMATION SHARING & ANALYSIS ORGANIZATION

What is FB-ISAO?

The Faith-Based Information Sharing & Analysis Organization (FB-ISAO) provides members with threat analysis, incident reports and other services that help organizations prevent, respond to, and recover from incidents. With an all-hazards approach, FB-ISAO provides the faith-based community with the information, training and tools they need to **enhance the safety, security, and resiliency** of their facilities. FB-ISAO offers a trusted environment to enable collaboration among members, the wider Information sharing community and government partners– **we are stronger together.**

Why should an FBO join?

Faith-Based Organizations (FBOs) operate in a unique security environment. FBOs must maintain a welcoming approach while providing a safe environment for their staff and congregants even though they often lack the resources for dedicated or even part-time security teams. FB-ISAO members engage with leaders who are experiencing similar security challenges, they share effective practices and mitigation strategies, and learn from each other. In addition, members receive daily threat and analytic reports highlighting security challenges confronting FBOs. This gives resource constrained organizations insights, resources, best practices, and analysis that are hard to find. FB-ISAO membership extends the scope and capabilities of an organization's physical and cyber security risk management activities, like adding virtual staff members. **FB-ISAO membership is a force-multiplier.**

FB-ISAO members have access to:

- Analytical and incident reports on security topics of particular concern to the faith-based community
- Training on topics such as how to develop Emergency Operations Plans
- Documents such as the Pandemic Reentry / Reopening Checklist for FBOs
- Discussion based workshops that address hostile event preparedness
- Access to community centric and community developed best practices

Join FB-ISAO today!

FB-ISAO helps members reduce risk and respond to threats and incidents.

We welcome all faith-based organizations, charities, non-profits, schools and other critical faith-based community partners. Join collaborative forums and working groups, access reports, participate in leadership opportunities, and take the next step toward enhancing your organizational preparedness, security, and resilience.
